Dear Mr. Murphy:

RE: Project Description: Multiklient Invest Labrador Offshore Seismic Program, 2026–2030

Multiklient Invest AS (MKI), a wholly owned subsidiary of TGS, is proposing to conduct 2D, 3D, 4D seismic surveys offshore Labrador within the 2026-2030 timeframe.

Accompanying this letter is a Project Description (PD), which is the first step in the C-NLOER environmental assessment (EA) process. The PD and the technical and scoping advice received from the C-NLOER, other federal agencies, and stakeholders consulted by MKI, will guide the preparation of an EA.

I would like to thank you for your attention to this matter and look forward to working with the C-NLOER on this submission. Should you require any additional information or have any questions do not hesitate to contact me at 709-749-6046.

Best regards,

[Redacted Signature]
Jason Norman
